## Introduction

The 2001 edition of the Michigan Academic Library Statistical Report presents data provided by academic libraries throughout the state. Data is compiled from the 2000 academic libraries survey distributed by the U.S. Bureau of the Census. Definitions for these data elements are based on the Integrated Postsecondary Education Data System (IPEDS-L). Of the 104 postsecondary libraries in the state that were invited to participate, 89 libraries responded and are included in this report.

To make the publication more readable, a blank indicates that the library reported "0", "none", or did not report. Data was accepted as reported. There were no imputations for libraries that did not respond or for items left blank. Thus, unless the response rate to a data element was 100 percent, totals in the tables are probably underestimated.

Thank you to all respondents for your accurate reporting of these statistics. We welcome any comments and questions about this report, as we strive to make this as complete and useful as possible. Additionally, the Library of Michigan can provide more detailed information on all library statistics (including public library information) for this and previous years to individuals upon request. Please direct your questions, comments or specialized report requests to Molly Dwyer at the Library of Michigan, 717 West Allegan Street, PO Box 30007, Lansing, MI 48909-7507, email: [mdwyer@michigan.gov](mailto:mdwyer@michigan.gov).

Additional library statistical information is available in pdf format on the Department of History, Arts and Libraries web site at [michigan.gov/hal](http://michigan.gov/hal).
